

# Pompaelo+

CONTROLS ANY MAGNETIC  
FEATURE IN ANY DOCUMENT

Control every step of the printing process with the same tool from the time the raw material arrives until the ink dries. Pompaelo+ can be used as a hand-held device, or plugged to the computer for a deeper analysis of the data collected thanks to the advanced software that the system incorporates. Get full traceability of all your measurements taken in the lab or at the production line. Approved by the main central banks as quality control tool for currency production.

## FEATURES

- Contact-less, tested on wet sheets
- 2 seconds/measurement
- Hand Held, Li-on Battery
- **Magnetic Thread features:** Elongation control, Embedded Code Recognition and Magnetic Intensity checking
- **Large, color Touch-Screen:** Graphical Information on the go
- Programmable thresholds and ALARM values for production control
- Inks, soft & hard, thread, OVMI, numbering
- Plug&play, easy to use
- **Data Link Software:** USB connection to any PC, deep analysis, thresholds and operators configuration and traceability & QC set of tools

## TECH SPECIFICATIONS

- Weight:** 1,4 kg.
- Dimensions:** 106 x 82 x 359 mm
- Voltage:** 220/110 AC – 50/60 Hz
- Connections:** USB, Charging Jack
- Screen:** 320 x 240 px
- Stroke:** 90 mm

PERFECTION IS A MATTER OF ACCURACY
